1 About Rally of Tsumagoi

The land of Rally of Tsumagoi, Tsumagoi village is located in Northwestern part of Gunma Prefecture. 150kms Northwest of Tokyo and the village is known as home of cabbages.

At Tsumagoi village, most of the roads have been closed during the winter season. In order to make these roads available for the rally, as we are receiving full support from the Tsumagoi village for snow removal. We would like invite many spectators to encourage regional vitalization and at the same time wish many of the local residents to have a better understanding of motorsports.

Rally of Tsumagoi first started in 2007. From 2008, the name has been changed to BICC Rally of Tsumagoi. From 2009 it became a 2-day event. In 2012, this rally has been categorized under JAF East Japan Rally Championship. And the rally became an FIA international status in 2016. 2 About Tsumagoi Village

Tsumagoi Village is situated in West Northern part of Gunma Prefecture. On the eastern side is Naganohara Town and Kusatsu Town. Eastern, southern, northern sides are all part of Nagano Prefecture. Mountains excluding the exterior eastern side of the village are the Mount Asama(famous volcano), Yunomaru, Mount Azuma, Mount Shirane, an altitude of 2000m and is Japan's great divide.

In the center of the village from west to east runs the Azuma River. Most of the villages are scattered in this basin. Its geological features are mostly humus soil of volcanic tuff is most suitable for growing vegetables on the plateau. The cabbage grown in this region's plateau is top number one nation-wide.

Tsumagoi village is on a plateau, the climate is cooler all year round an average of under and above 8C degrees. Especially, the temperature is very volatile during one day. Mainly the temperature is best in summer outnumbering Karuizawa as a summer resort.. Now, the Asama plateau's whole area is in the spotlight of villa ground.

And for motorsports, Tsumagoi is known as a birthplace of the Japanese motorsports culture. The Asama volcano road race for motorcycle started in 1955 and the one of the oldest race track was opened in 1957 for research and development of the Japanese motorcycle and car manufactures.

After motorcycle races, the track became a common venue for rally cars. Datsun's Safari preparation continued till the mid '70s and Mitsubishi develop the cars at same time for the Southern Cross Rally. A part of the track still remains as a village heritage.

In 2009, Tsumagoi motorsports promotion organization was founded by Tsumagoi mayor, Tsumagoi Commerce and Industry Association and Toursim office around the village. A part of the road used on the Asama race in 1955 is a liason and Asama race track is a special stage for the 2017 edition of Rally of Tsumagoi.
